The French Riviera—A Place of Art and Natural Beauty

Jason Najarak has known, worked, and been friends with **Picasso, Chagall, Dali, and others.**

Jason was greatly encouraged by the great art collector and actor, **Vincent Price**, to go to Europe and learn from the Masters.

Now he is sharing his *lifetime of adventure* and education with a select group of art enthusiasts with a luxurious, personal art tour of the **Cote d'Azur**, region of France. The home and inspiration to many of the world's greatest artists.

Jason will be your *guide*, sharing his personal experiences, as well as a broad, engaging *Art History Seminar* for new and

experienced art buffs.

He will share *anecdotes* of his interactions with the artists, providing **1st hand**, insightful details on their motivations and techniques.

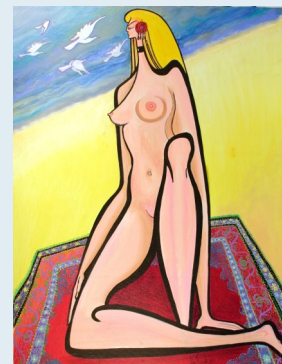

You will learn how their art fits into **art history**, with a focus on 19th and 20th century European and American art.

Some of these studios and homes have never been open to the public. Be one of the first to share this unique opportunity!

Your trip to the French Riviera will be extraordinary. You will be treated like royalty in a **private villa** with maids, servants, a gourmet chef, and a chauffeur driven luxury

car.

Enjoy the Cote d'Azur, minutes from **Cannes, Nice, St. Paul de Vence**, and spend sun filled days visiting the beautiful villages up and down the

Riviera. Then return and lounge around your own private heated pool.

Trip Highlights:

- Visit to Picasso's Chateau de Vauvenargues in Aix where Picasso lived and worked
- View some of Picasso's private works which have never been seen outside his chateau.
- Visit Picasso's private gravesite within the castle walls.
- Take special trips to local museums, artist's studios, and other art collections throughout the region.

A SPECIAL GIFT FROM JASON NAJARAK

All guests will take home a unique record of this experience of a lifetime:

A personal **coffee table book**, hand signed and numbered, by the artist,
Jason Najarak.
